

SYNEFFEX ENERGY PROTECT 18.9L

Savings of around 20% to 40% on heating and cooling energy costs. Not only does it insulate with a thin transparent film, but it's also resistant to mold, moisture, and UV radiation. Suitable for use on walls, skylights, monuments, and anywhere we want to maintain the original appearance of the substrate. A clear coating suitable for use on almost any type of building surface, including wood, brick, painted walls, drywall, and plasterwork.
